Overview

This comprehensive short course focuses on the critical aspects of treasury management and regulatory compliance within an organizational context. The course provides participants with a deep understanding of treasury functions, cash and liquidity management, risk management, and the implementation of effective compliance frameworks. The aim is to equip finance professionals and managers with the necessary knowledge and skills to optimize treasury operations, ensure regulatory adherence, and contribute to the overall financial well-being of the organization.

Rationale

Effective treasury and compliance management are essential for organizations to maintain financial stability, mitigate risks, and ensure adherence to legal and regulatory requirements. This course addresses the growing need for finance professionals and managers to possess a comprehensive understanding of treasury operations and the evolving compliance landscape, enabling them to make informed decisions, implement robust control mechanisms, and align treasury activities with the organization's strategic objectives.

Objectives

By the end of this course, participants will be able to:

1. Understand the role and responsibilities of the treasury function within an organization.

2. Develop and implement effective cash and liquidity management strategies to optimize working capital and ensure financial resilience.

3. Identify, assess, and manage various financial risks, including market, credit, and operational risks, and implement appropriate mitigation strategies.

4. Establish and maintain a comprehensive compliance framework to ensure adherence to applicable laws, regulations, and industry standards.

5. Effectively communicate treasury and compliance-related information to stakeholders, including senior management, regulators, and financial institutions.

6. Optimize treasury operations through the effective use of technology, automation, and data analytics.

Course content

1. Introduction to Treasury Management

- Role and responsibilities of the treasury function
- Aligning treasury objectives with organizational strategy
- Treasury organization and governance structures

2. Cash and Liquidity Management
